Medication Access Program (MAP) for Testosterone & Estradiol

We offer support options for patients who may have difficulty affording their medications. Harmony HRT Patients can participate in this program, as MAP relies on the Partnership between the Bridge Alliance Fund and Harmony HRT.

Pricing Structure

Med	Strength	Vial Size	Shipping	Total Cost Per in office Inj	Total Cost Per Med
Estradiol Cypionate	10 mg/mL	5 mL	$15	$20	$68
Estradiol **Tablets**	1 mg	tab	$15	-	$10
Testosterone Cypionate	200 mg/mL	5 mL	$15	$20*	$37
Shot Kit	1 month supply	4 alcohol wipes, 4 bandaids, 4 syringes, 8 needles		Included with medication	Refills $5 per shot kit
PT to pay total Cost per Med - Once funding is available from BAF costs may be helped to be subsidized on case by case basis					
Western Colorado Compounding pharmacy - Estradiol Vale injection vials, we have got 2 different strengths. First 1 that it comes in is a 20 mg per ml. It is a 5 ml vial and it runs a $165 each and then there is a more concentrated 40 mg per ml, 5 ml vial and that runs $200 per vial.					
MAP - estradiol Valerate - 0.2mls per week- lasts about 6 months. $11 per month or $68 for 6 months. Out of pocket cost for estradiol tablets from a retail pharmacy typically cost for your dose 4 tablets per day 1mg each is about $35 a month or $210.00 for 6 months.					

Workflow

- Provider Prescribes Pt with Testosterone/estradiol Injections or tablets
- Pt has in-office medication injection training with staff (vial used in training will go home with pt) Document Vial: EXP/ LOT/ Manufacture / Strength / Size in Pt chart.
- Pt pays for medication at check out Vial goes home with PT

🤝 How do I GET support?

1. Let your Harmony HRT care team know you need support - You MUST have a referral from HARMONY HRT to the Program due to confidentiality and safety protocols.
2. Discuss your payment option with staff
3. Staff will help you schedule injections, administer them safely, and track your doses
4. Fund donations and community support ensure ongoing access for all patients

---

This program is supported by: Patient donations - Staff contributions -Community partnerships - Patients who can afford it can also choose to “pay it forward” and support others.

Harmony HRT

Medication Access Program

We offer support options for patients who may have difficulty affording their medications.

📣 Want to Help?

You can contribute to the Medication Access Program by rounding up with the *Pay it Forward* option **at checkout** or **online at the QR code below**

How your support helps:

- Sponsor 1 dose of medication: **~$6**
- Sponsor 1 months supply of medication : **~$23**
- Sponsor 1 full vial (3-5 month supply): **~$68**

In Partnership wtih The Bridge Alliance Fund

Harmony HRT

We are thrilled to announce our **Medication Access Program**

We offer support options for patients who may have difficulty affording their medications.

<u>Available options include:</u>

- Full vial purchase
- Per-injection payment (staff-assisted injections in clinic)
- Sliding scale or fund-supported partial/full coverage
- Staff will help you schedule injections, administer them safely, and track your doses

<u>This program is supported by:</u>

- Donations
- Staff contributions
- Local community partnerships
- Pay it forward at check out - Round up to help cover the Next Patients Dose

In Partnership wtih The Bridge Alliance Fund

PT Medication Cost Guide

Our goal is to provide transparent medication pricing so patients can better plan for treatment costs. Medication prices reflect our current purchasing costs and may change as supplier pricing changes.

Medication	Typical Dose	Supply Provided	Estimated Duration	Patient Cost through MAP with BAF
Estradiol Cypionate Injection (10 mg/mL)	0.4 mL weekly	5 mL vial	Approximately 12 weeks	$68
Testosterone Cypionate (200 mg/mL)	0.5 mL weekly	5 mL vial	Approximately 10 weeks	$37

**Dose may vary based on your provider's treatment plan.*

WCCP	Strength	Vial Size	Cost		MAP Program	Strength	Vial Size	Cost
Option 1	20 mg/mL	5 mL	$165		Option 1	10mg/ml	5ml	$68.00
Option 2	40 mg/mL	5 mL	$200		Includes INJ kit			

Estradiol Valerate Options

Medication Assistance Program Example

Patients enrolled in the Medication Assistance Program using Estradiol Valerate typically receive:

- Dose: 0.2 mL weekly
- One vial lasts approximately 6 months
- Approximate patient cost: $68 for six months
- Equivalent monthly cost: About $11/month

Estradiol Tablets vs. Injections Comparison

Medication	Approximate 6-Month Cost
MAP Injectable Estradiol Valerate	$68
Retail Estradiol Tablets (4 mg/day)	About $210

For many patients, injectable estradiol through the Medication Assistance Program may provide a substantially lower out-of-pocket cost than purchasing higher-dose oral estradiol through a retail pharmacy.

Prices are estimates and are subject to change.

Medication Access Program (MAP)

Medication Assistance for Testosterone & Estradiol

*The **Medication Access Program (MAP)** helps Harmony HRT patients who may have difficulty affording prescribed testosterone or estradiol.*

*MAP is made possible through the partnership between **Harmony HRT** and the **Bridge Alliance Fund (BAF)**. Assistance is based on available program funding and individual patient circumstances.*

Current Medication Costs

Medication	***Strenght***	***Size***	***Current Cost***
Testosterone cypionate	200 mg/ml	10 mL vial	$40
Estradiol cypionate	10 mg/ml	5 mL vial	$70
Estradiol *Valerate*	20 mg/ml	5 ml vial	$155
Estradiol tablets	1mg or 2mg	36 tabs	$15
Shot kit	4 x syringes, 4 x draw needles, 4 x injection needles, 4 x bandaids, 8 x alcohol wipes		Included with medication
Refill shot kit - 1 month	Genesis Pharmacy can ship Shot kits to pt's as well for $8		$5 through HARMONY HRT

**Pharmacy pricing varies*

Estradiol Valerate — Western Colorado Compounding Pharmacy

Estradiol valerate may also be available through Western Colorado Compounding Pharmacy:

- 20 mg/mL, 5 mL vial: $165
- 40 mg/mL, 5 mL vial: $200

Your Support Helps Someone Else Access Care

Patients who can afford their medication may also choose to "pay it forward" and support another patient through the Bridge Alliance Fund.

Helping patients maintain access to prescribed hormone therapy when cost creates a barrier.

How MAP Assistance Works

Patients are responsible for the medication cost unless MAP assistance has been approved.

When funding is available, the **Bridge Alliance Fund may subsidize some or all of an eligible medication cost on a case-by-case basis**.

Funding comes from:

- Community donations
- Patient donations
- Staff contributions
- Community partnerships
- Patients who choose to **pay it forward** by helping support another patient's care

How to Request Support

1. Talk with your Harmony HRT care team.
Let your care team know that you are having difficulty affording your medication.

2. Receive a MAP referral.
Because MAP operates in partnership with Harmony HRT and involves protected health information, patients must be referred to the program through Harmony HRT.

3. Discuss your payment options with staff.
Your care team can explain available options and help determine what documentation or information may be needed.

4. Continue your care safely.
Harmony HRT staff can help coordinate medication pickup, injection training, in-office injections when appropriate, and medication tracking.

5. MAP funding is limited.
Assistance depends on available funds and may vary from patient to patient. Community donations help keep the program available to more people.

Injection Training & Medication Safety

Patients prescribed injectable medication receive injection education from Harmony HRT staff when appropriate.

Patients should follow their provider's prescribed dose and schedule and should contact Harmony HRT with questions about their medication.
